

# Centennial Place Happenings

National Nurses week is May 10-16th and will be celebrated at Centennial Place during this time with a special event for all staff in the fireside lounge.

This will be our 7th year of celebrating our Care Department and they have certainly endured many changes during this time. This year in particular, is a year of exciting changes that will move the department into leading technology, Best Practice Guidelines and exciting initiatives. Nurses never seem to slow down, they are constantly learning, and their profession gets busier every day!

Centennial Place has always been blessed to have an exceptional nursing team that has been the forefront of establishing our excellent reputation.

Residents, families and co-workers are asked to join us in celebrating our exceptional nursing staff this week!

Members of the Care Department take a moment to pose for the camera.
